

## Technical Information HARO non-woven lining

ID No. 410 633

**HARO**  
Quality Flooring

- Product** Multifunctional protective and non-woven lining with adhesive coating.
- Product composition**
- Non-woven fabric made from synthetic fibres
  - PE film on top as liquid barrier
  - Anti-slip coating on the underside
- Advantages**
- Non-slip
  - Easy to lay
  - Can be installed quickly and without wrinkles, without the need for additional securing with adhesive tape
  - Can be removed without leaving residues and reused
  - Versatile
  - Environmentally friendly (free of harmful substances, thermally disposable)
  - Extra robust and tear-resistant
  - Protection against mechanical stress
- Installation**
- Make sure that the subfloor is free of dust and grease and also dry.
  - Install with PE film facing upwards, the direction of installation is irrelevant.
  - Easy and lint-free to cut to size with a general-purpose cutter (carpet knife).
  - Install with 10 cm overlap
- Function and application**
- Reliable and effective protection for short-term covering of all types of floors, textile floors (short pile carpet), tiles, furniture, etc.
  - **Please note:** HARO non-woven lining is not suitable for moist subfloors, porous stone floors and earthenware slabs.
